

SPENCER BETCHEY

Fort Atkinson, WI 53538 • (920) 691-6296 • spencerbetchey@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio Site](#)

Professional Summary

Detail-oriented undergraduate with strong programming skills in Java, Python, and C++. Experienced in Agile methodology and project development, driving successful outcomes through effective collaboration and problem-solving.

Education

University of Wisconsin-Stout Polytechnic, Menomonie, WI

Bachelor of Science in Computer Science, GPA 3.22, Expected May 2027

-Concentration in Game Design/Development

-Mathematics Minor

Technical Skills

Languages: Java, Python, C++, C#, JavaScript

Web & Database: HTML, CSS, SQL, PHP

Tools & Technologies: Git, Unity, Unreal Engine, Godot, Phaser

Development: Agile/Scrum, Debugging, Game Development, Version Control

Relevant Experience

Seasonal IT Service Desk Specialist, Nasco Education - Fort Atkinson, WI (June 2026 - August 2026)

- Troubleshoot hardware, software, printer, and network issues across office and warehouse environments, ensuring reliable daily operations
- Manage user accounts and permissions through Active Directory, Azure, UKG, and Transtream, supporting employee onboarding and access control
- Provide remote technical support using Remote Desktop and ScreenConnect while monitoring critical systems and server infrastructure

Projects

Budget Tracker, Personal Project (June 2026)

- Developed a full stack budgeting application using PHP, MySQL, and Bootstrap 5, demonstrating web development skills
- Implemented CRUD functionality with server-side validation and SQL queries for real time balance tracking
- Designed a responsive user interface and integrated a MySQL database, emphasizing usability and reliability

LiteScript Interpreter, Personal Project (April 2026)

- Designed and implemented a custom programming language interpreter in Java, demonstrating strong problem solving
- Built a lexer, parser, and AST evaluator with correct operator precedence, applying analytical thinking to complex system
- Developed a stateful REPL with persistent variable storage using a HashMap, and created 20+ JUnit tests for reliability

Hazard Hotel, Exploratory Game Design and Development - UW-Stout Polytechnic (September 2025 - December 2025)

- Developed gameplay systems and a custom controller using Godot, GDScript, and C#, emphasizing technical creativity
- Collaborated on an 8-person team to integrate game logic with a custom switchboard input system, showing adaptability
- Presented at the Fall 2025 Stout Game Expo, communicating technical concepts in a professional showcase environment

Leadership

Varsity Esports Team Captain (Rocket League) - UW-Stout Polytechnic (September 2024 - Present)

- Led and coordinated a competitive team, improving communication and in-game strategy

International Game Developers Association, Member - UW-Stout Polytechnic (September 2023 - Present)

- Collaborated and connected with peers on game design concepts and development practices using industry tools

Additional Experience

Landscaper, Evergreen Cemetery - Fort Atkinson, WI (May 2024 - August 2025)

Bagger, Festival Foods - Fort Atkinson, WI (June 2021 - August 2023)
